

## ASX ANNOUNCEMENT

30 April 2020

# Quarterly Activities Report

Fremont Petroleum Corporation Ltd (ASX: FPL) ('Fremont' 'the Company') provides this activities report for the quarter ended 31 March 2020.

### Operations

There were no changes in tenements held and no substantive development activities undertaken in the quarter.

As reported on 23 March 2020, given recent depressed prices for West Texas intermediate (WTI) crude oil, production in Colorado and Kentucky has been temporarily shut-in until prices improve. Fremont commenced an extensive cost reduction program at a corporate and operational level. Reducing OPEX at this time is a priority and greatly rationalising the cost base will ensure Pathfinder's and Kentucky's margins improve significantly when production resumes.

Negotiations with respect to a gas off-take agreement from the Pathfinder Field continued in the quarter. Whilst these have been ongoing for some time, the Company is pleased with recent progress made. Pathfinder becomes a much more valuable property when it can combine gas production with existing oil production.

### Events subsequent to the end of the quarter

On 29 April Fremont reported that it has secured AU\$3m of funding commitments from three Australian family offices through a direct placement of new shares at \$0.003 per share with a one-for-one attaching option exercisable at \$0.003 expiring 12 months from the date of issue. As well, agreement has been reached with the existing convertible note holders to convert their total debt into equity at \$0.003 per share.

Fremont's Board believes now is the right time in the cycle to be assessing opportunistic conventional oil & gas acquisitions focused on onshore USA, as well as optimising the performance of its current portfolio. Updates will be made as material developments occur.
